

St. Margaret's Cemetery Interim Report May 24, 2023

St. Margaret's had its annual clean up in early May. 17 people showed up. Lots of work was accomplished: cleaning of the grave markers, weeding and mowing, broom cleanup, trying to keep up with blackberries, cleaning up the works area. Much gratitude to all who showed up. The cemetery looked pretty darn nice.

A committee has been formed to begin the research and development of the green burial component to the cemetery. They are due to start working next fall.

The Cemetery Committee AGM is on June 7 so I will have more to report at the TIRRA GM
