

St. Margaret's Cemetery Report TIRRA June 29 2023

The annual AGM for St. Margaret's Cemetery was held on June 7 2023. We welcomed the creation of a Green Burial Committee which will be charged with the research and development of a Green Burial component to the cemetery as well as considering other options such as memorial gardens. They are due to start the research phase this September.

The Board consists of Chair-Suzanne Sarioglu; Treasurer-Simon Luckham; Secretary-Janice Young; Alisha Rennie- community forum and Green Burial liaison; David Reay-community outreach; and Sid Mawson -maintenance.

Charlie Fordham who has been a long-time supporter and friend to the cemetery has retired from the Board and will sit as a senior advisor. He will be sorely missed and we remain grateful for his service all these years.

We welcome Sid Mawson as a new Board member in charge of maintenance and works yard development.

We thank TIRRA for agreeing to subsidize the purchase of a Puller bear tool on behalf of the community. St. Margaret's will take advantage of this tool to combat the invasive blackberries and broom on the grounds. Deeply appreciated.

The summer will be quiet in terms of anything happening at the cemetery but watch for the building of a shed and an overall clean-up of the works yard.

Suzanne Sarioglu
Chair, St. Margaret's Cemetery
