

TIRRA AGM Trail Report June 2021

We've had a busy trail maintenance year with no new trails being established. There will be a spring trail trim happening in June. Fortunately we have a lovely new weed trimmer, purchased by TIRRA, and shared with the Cemetery and Recycling Yard which is centrally located at Frank & Pat English's. Phone in advance of need to ensure that batteries are fully charged. Safety equipment is provided and must be used.

Lawrence Valley Loop

- Downed trees removed by Chris Call
- Heavy rains flooded valley access and trail closed for a week (safety issue)
- Boardwalk broken by uprooted alders during heavy rain. Covenanted section of the trail closed due to safety issues
- With permission from covenant holder, boardwalk re-built
- Materials donated and delivered by Steve & Helen Bird, Ron Bannister, Joe Knowles.
- Signage for local flora and fauna still in progress

Lawrence /Community Trail

- July replaced three boardwalks at Kenwood end with assistance from ThINC Summer Students
- Clarified provenance of this trail - property owners TIRRA and Kasting families
- Contacted adjacent property owners to verify trail course
- Defined trail course and posted signs indicating private property
- TIRRA Executive decided this trail to be named Lawrence Trail
- Norm Kasting to sign trail licence for the Mission end section
- Sign at trail heads (Kenwood and Mission Roads) outlining historical influence of Lawrence Brothers in this area is in progress

Dingly Dell

- Invasive plant species initiative with Jollity Farm (goats) and ThINC Summer Students.

Concerns

- Continued disregard by some trail users with regard to designated trail course. Private property signs on Lawrence Trail tossed aside.

- Trails are designed for pedestrians - not cyclists.
