

Trail Report

May 31, 2023

Dingly Dell

- Spring cleanup in progress
- Ongoing issue - management of invasive species (blackberries, holly). Help will be sought
- Bond family has been very supportive in the maintenance of this trail

Fairy Slipper

- TIRRA's Trail licence is for the parking lot and first small segment of the trail
- Dangerous tree noted at the beginning of the trail and trail head was diverted. Done in collaboration with ThINC and Porter family
- Dangerous tree removed late May by Arborist, Chris and original trail entrance re-opened

Lawrence Valley Loop

- Trail has been closed and re-opened a few times due to flooding
- Maintenance ongoing with thanks to Committee members
- Historical signage forthcoming

Lawrence (Community) Trail

- South end water mitigation project is ongoing and is having some effect during heavy rains
- Maintenance ongoing project
- North end - after observing over several winters, the plan for additional bridging has been shelved. The trail has been temporarily detoured to avoid the unsafe pathways due to flooding.
- Thank you to Meadow Valley strata, Cowichan Lands Trust, and the Land Conservancy for allowing this temporary detour to happen
- We urge trail users to be respectful of private property owners
- The future of this portion of the trail will be continually reviewed

Documents that require public access for trail will be posted on the TIRRA website in the near future.

We thank the generosity of property owners and those who volunteer to maintain the trails.

Sincerely
Trail Committee
