

TIRRA Trails Report

February, 2024

Lawrence (Community) Trail

Kenwood end - Meadow Valley Strata committee has granted a further continuance of the allowed detour due to flooding in one portion. Thank you to the MVS Committee for allowing this to continue. The Mission Road end is walkable. There is a small alder tree down over the trail which is easily traversable.

Lawrence Valley Loop

The ceremony of dedication with a Penelakut elder for the cultural historical sign is still in process. Maintenance on this trail is ongoing but is currently closed due to flooding in the meadow bottom. We will notify the re-opening via eSPOKES. The remaining portion of the trail can still be accessed through the Dingly Dell Trail and the Lawrence (Community) Trail connection. Management of invasive species continues to be monitored. A large downed tree was dealt with by Ian Ralston. Adam and Monica took care of some other smaller alders.

Dingly Dell

Thanks to Adam Sandell and Monica Harvey for volunteering to be the trail stewards for this trail. This trail is in fine condition.

Fairyslipper

TIRRA's responsibility for this trail covers the parking lot and first small section of the trail. The remainder of this covenanted trail is maintained by ThINC. Several months ago a leaning arbutus was removed at the head of the trail by arborist, Chris.

Mt. Burchell

We are grateful to the Norm and Arlene Kasting family for their generosity in allowing this new trail to be added to our trail network. This familiar trail has been one of the favourites with islanders over many decades and with the signing of licence, the maintenance now becomes the responsibility of TIRRA. Formerly known as the Burchell Hill Trail, at the request of the Kastings, it has reverted to its original name of Mt. Burchell. There is a sign at the beginning of the trail outlining its history sponsored by Mary Forbes.

With the signing of a trail licence for a new trail, TIRRA's insurance company is notified to ensure that liability for the trail is transferred to TIRRA.

We appreciate the assistance of volunteers who help keep these trails in good condition for the enjoyment of Thetis Islanders.
