

CVRD Community Dock

Concerns raised from TIID, TIVFD, and TIPC regarding access to dock during a patient emergency evacuation. Site visit 14Jan2021 with representatives from Ministry of Transportation & Infrastructure, Emcon, TIID, TIVFD, and TIPC.

BC Ferries Terminal engineers and the local ferries Safety Committee has been reviewing the terminal approach for some time in an effort to improve safety for residents and visitors.

Basic summary of concerns raised during 14th Jan site visit.

- Safety of walk on/off ferry foot traffic.
- Ferry parking (partially blocking thru traffic lane, encroaching onto private property).
- Lack of passenger drop off/pick up area.
- CVRD wharf entrance congestion.
- Overall congestion on Foster Point Rd from the BC Ferries terminal to the CVRD wharf.

Letter sent to Islands Trust Thetis LTC 22Jan requesting our LTC to advocate in bringing the appropriate stakeholders together, to establish an overall plan for this containment area within the OCP resulting in improvement to safety for islanders and visitors. With an overall plan in place, we would then be in a more favourable position to take advantage of any applicable grant funding. The subsequent action item from [28 Sep 2021](#) Thetis LTC shows as *In Progress*.

26Jul Response to request for MOTI 28Jul Board Meeting from CVRD Lynne Smith. Patching recently completed sealing cracks and damaged portions of pavement. Thanks to Joe at Emcon. Requested that Moore Hill issues be kept on MOTI radar. Diligent repairs have been undertaken, residents concerns responded to, and weekly patrols ongoing. Pilkey Point residents want to be assured that the road continues to be safe for all vehicles, including Emergency vehicles, and commercial traffic. As with many rural roads, there is no detour available in the event of a road closure.

22Sep Roadside brush cutter on island reducing extensive growth from blackberries etc.

05Oct Resident reported unlicensed abandoned vehicle Pilkey Point Rd, referred to Emcon, vehicle subsequently removed, Followed up with resident.

18Oct Resident reported trees being removed from side of Pilkey Point Rd. Referred to Joe, and he indicated trees fallen by MOTI had been offered as firewood to residents.

Residents are encouraged to report any rockfall on Moore Hill to Joe at the Emcon Yard 250 246-3431 as each rockfall is recorded. Emcon can also be contacted 24/7 using their Road Reporting Line at 1 866 353-3136.

For all emergencies dial 911.
