

TIRRA Transportation Report prepared 20th February 2023 for upcoming AGM

Staff turnover continued at Ministry of Transportation and Infrastructure in 2022, with a total of 4 different MOTI Area Managers having responsibility for Thetis Island. This created challenges but we were able to coordinate a site visit from the current Area Manager Ryan in mid November.

- Toured Moore Hill reviewing resident's concerns. Ryan indicated painted centre line is satisfactory, that MOTI is now using water based paints vs oil based paints, which may not hold up as well, but is better for the environment. Ryan indicated road debris sweeping was being performed within maintenance specifications.
- Ryan reported that 2022 seal coating had been completed on the south end of Thetis, and indicated that the focus would be from the north end in 2023.
- Request for Hidden Driveway sign denied as not meeting MOTI criteria.
- Slough culvert flapper has corroded and has now broken off, allowing tidal water to enter the slough. This has likely contributed to the mosquito issue last summer. MOTI is reviewing possible alternatives to the flapper.
- Angle parking at ferry, issue of vehicles overhanging white line (fog line) impeding traffic flow. MOTI engineers reviewing moving centre line over approx two feet to allow for wider turns exiting the ferry southbound, while providing more room for angled parking.

Emcon contractor completed initial roadside mowing in June and then a second in July.

Thanks always to Joe at Emcon for his dog treats, quick responses, thorough explanations, snow clearing, and resolution of issues.

Stu Downey Transportation Chair

Emcon contact info:

Emcon can be contacted [24/7](tel:247) for any issue using their Road Reporting Line at [1 866 353-3136](tel:18663533136).

Residents are encouraged to report any rockfall on Moore Hill to Joe at the Emcon Yard [250 246-3431](tel:2502463431) as each rockfall is recorded.

For all emergencies call 911
