

TIRRA Special Executive Meeting
Monday, September 12th, 2022, 2:57PM

President Wendy Hinsperger called the meeting to order at 2:57PM with the following also present:

- Vice President, Quentin Goodbody
- Treasurer and Solid Waste Chairperson, Ernie Hunter
- Trails Chairperson, Vicki Walker
- St. Margaret's Cemetery Chairperson, Suzanne Sarioglu
- Transportation Chairperson, Stu Downey
- Espokes Chairperson, Claire Hess
- Absent: Secretary Lisa Vernon

Wendy Hinsperger thanked everyone for attending this Special Executive Meeting continued from the meeting called by Ernie Hunter and herself August 24th and September 8th.

Discussion regarding April 28th Motion and approval by Members: Many points raised for consideration:

- Validity of July 23rd vote having 3 options (including garbage only) when April 28th already stated proceeding with opening the Solid Waste Facility to recycle.
- Should the proper July 23rd procedure have been to reconsider the motion approved on April 28th based on new financial information regarding hauling?
- Was the information provided ahead of the July 23rd meeting sufficient to inform attending voters?
- As TIRRA's bylaws are not consistent with the BC Societies Act as to written notification, does this invalidate motions at both April 28th and July 23rd?
- Can we reopen recycle based on April 28th and July 23rd approved motions, or do we need to resolve notification issue before incurring costs?
- What is preventing us from opening recycle?

The Executive agreed with the necessity to rescind the approved motions of April 28th and July 23rd regarding Solid Waste operations due to non-compliance with BC Societies Act meeting notification requirements. It was recognized that the Executive does not itself have the power to rescind votes taken at general meetings.

Quentin proposed to the Executive that the following motion be put to those present at the next Regular General Member Meeting:

MOTION: “ This *this house agrees with the TIRRA Executive recommendation to rescind the approved motions of April 28th and July 23^r*, regarding Solid Waste operations due to non-compliance with meeting notification requirements per the BC Societies Act.

Approved unanimously.

With approval of this motion, the following draft documents require updating: apology letter to community via espokes, notification of October General Members Meeting, interim response to Ann Eriksson and Vicki Walker: Wendy will complete in week of September 12th for Executive approval.

Information session: to be held in October to provide information to members and property owners about the options and their implications. This is to close the gap on feedback received that insufficient information has been provided by the Solid Waste Committee. Vicki, Wendy, Ernie, Quentin will work on presentation slides which will engage community in reviewing and providing an opportunity for questions: slides to be posted on TIRRA website and presented at the Information session.

During Executive Meetings and General Member meetings in 2022, there has been a request to receive written position paper from CVRD regarding their support going forward (or lack thereof), in consideration of precedent which was set by support provided since 2013 (bin, hauling, visits to TIRRA site, praise from CVRD Waste Personnel, etc.). Ernie committed to obtaining such a letter.

Letter to CVRD, from TIRRA Executive to be prepared by Vicki Walker and Wendy Hinsperger, for board approval, describing the precedents set and asking for reconsideration of CVRD taxpayer support to be reinstated. This letter need not wait for a response as per above paragraph.

Agenda item: September 8th Special Executive Meeting Minutes: tabled from agenda to be reviewed and approved via email.

Wendy adjourned the meeting at 5:10PM
