

Acting President Wendy Hinsperger called the meeting order at 6:00pm with the following also present:

Treasurer and Solid Waste Chairperson, Ernie Hunter

Vice President, Quentin Goodbody (via Zoom)

Communications Chairperson, Veronica Shelford

Trails Chairpersons, Doug Fenton

Secretary, Georgina Webber

St Margarets Cemetery Chairperson, Suzanne Sarioglu

Territorial Acknowledgement: We are privileged to live on the unceded traditional territories of the Penelakut Tribe and Lyackson First Nations.

Wendy welcomed everyone and thanked those who submitted reports in advance of meeting. Each committee chair responded to points of clarification. Verbal reports were given where not provided in advance. All reports will be posted for community to review prior to AGM on October 24, 2023.

MOTION: Minutes from May 24, 2023 be adopted as posted: Moved by Veronica, Second by Suzanne. Adopted.

Reports

President's Report: Wendy presented reports on Work in Progress: By-laws Review: near completion; some sticking points. Draft should be ready for review in time to vote at AGM in Spring. Transportation: Chairperson role is vacant at this time. No official report. Road Safety: An ad hoc group is addressing road safety through slow down days and assessments of dangerous intersections and areas where road sharing is common. Email to MOTI and Emcon for support; centre line re-painting, road-side scraping of vegetation for safe walking path (both sides where possible), speed bumps created at both ends of Ferry corridor; Weed-whacking work parties will be organized; ICBC providing safety reflectors for kids/bikers/walkers.

Trails Report: Doug Fenton: Less trail maintenance over summer: continued assessment of the flooding caused by beaver activity on the north end of Island.

Report from Vice-President: Quentin commented on Saltair Community meeting: water issues/community hall, etc. Jesse our Area G rep has been focused on Saltair's issues predominantly.

Treasurer and Solid Waste Reports: Ernie Hunter: Financial Report: No unusual items to report: new garbage rates in 2023 are covering costs at this time: therefore, no parcel tax will be required to operate Solid Waste in 2024. Solid Waste Report: Replacement for Louise. Two Applicants are being interviewed. Acknowledgement of Louise's long and dedicated service with a smile. She will be missed. Doug Fenton asked if on island Recycle is still being pursued. No recent discussions, however will be meeting with CVRD on this and other taxation type matters, in the near term. May not occur before the October 24th member meeting.

Mosquitos: Ernie has been involved in looking at the slough regarding mosquito control, although not as part of a TIRRA mandate. The culvert needs some repair before the duck bill valve can be installed. Discussion.

St Margaret's Cemetery: Suzanne Sarioglu: continuing research on natural coffin burial and green space burial. Report will be given at next meeting.

Communications: Veronica Shelford: need more volunteers for the Phone Book, visitors' guides and thetisisland.net.

General Discussions:

1) Wendy expressed concerns over long term vacancy of positions on TIRRA board (President, and Transportation Chairperson). Sustainability requires some new volunteers. Wendy challenged each Executive to provide some names of individuals who could be approached. Veronica suggested TIRRA and other island organizations could be promoting positions by publishing stories in the Quarterly: to raise awareness on volunteer positions available.

2) Port Commission TIRRA nominee required. Wendy has one candidate to approach, other Exec asked to consider individuals to approach.

3) TIRRA Membership as written in current bylaws can be confusing: Wendy provided a hand-out for team to review in terms of membership qualifications, membership fees, voting, electronic voting; bring forward to next Exec meeting.

Wendy thanked everyone and adjourned the meeting at 7:05pm.
